

Computing Club

Children enjoy using a range of technology at
Computing Club.

We enjoyed using the digital cameras to take photographs of our school. We learnt how to use the camera tools and make recordings.

We inserted our photos into a document by browsing the network and typed captions.

Next week there is going to be a shoe share on Wednesday 15th November. Bring some shoes and make them clean.

We also help school events by creating posters using Purple Mash.

Children at computing club enjoyed creating our own 3D maze games using 2DIY 3D. Follow the links to play our games!
