

# Sports Premium Funding 2022/2023

For the 2022/2023 academic year, Fairisle Infant and Nursery School received £17,920 to help us build capacity and capability in sport within the school, ensuring that improvements to the quality of physical activity provision are sustainable and developing the activities provided.

We have done this by:

- Continuing to develop the teaching and learning of PE through the use of the Real PE platform, supporting us to deliver an outstanding curriculum, providing an assessment framework and delivering CPD for staff.
- Providing free of charge after school sports clubs for our children run by qualified sports coaches.
- Increasing the participation of all children through our Health Fun Week including fun physical activities such as hula hopping workshops and sessions run by qualified sports coaches.
- Improving and repairing our playground equipment for the benefit of all pupils.
- Purchase of equipment and resources for PE lessons, sports clubs and physical activities during playtimes.
